

March 2017

Train up a child in the way he should go; even when he is old he will not depart from it. Prov.22,6

I had the opportunity to address some high school students on 28th March, speaking about our prison ministry experiences, with the purpose of crime prevention and evangelism. The invitation came from my son's religion teacher. She asked helps to make understand the consequences of wrong choices, what prison life is like, God's role in modern society. It was presented many

pictures from our ministry. This involvement is a great new challenge for me and I praise God for the youths. They were listening eagerly all the informations. The connection between schools, churches and prison ministry organizations help them to make positive choices. May God bless them!

An other great event was being part of a children's blessing in Kibed Chuch at Doczy's. It is a good practice in the baptist churches, beside every Sunday there is a consacred time for their sermons.

I visited two times this month Bistrita Prison and tokk the opportunity to invite a Christian brother to share his testimony among the inmates. Sixteen years ago he was diagnosed with metastatic cancer and the doctors predicted only six weeks of life. In that struggle to the death he surrendered himself to God and miraculously gets well. He has a strong testimony about the power of God. The inmates were very attentive. May God bless this man of faith! Brother Pal

Tamas in the picture.

Evangelism and witness in a nearby Church.

I had also the opportunity to visit brother Elekes in Oradea this month. I took hundreds of Bibles for prison ministry. He received me with true Christian love. We prayed that God bless his work in the Oradea prison.

Dumitru Costin made a huge effort in the process of national accreditation of a new program for inmates. He and his team translated from English a very good daily devotional book. We pray that God will make

possible next required steps. More about him and his ministry on the <http://gloriaprodeo.ro/> website.

Baboi Marian greets you with God's grace and reports a fruitful activity in all locations where he serves.

Andras Attila will soon send some data about his work. Probably coming days in a separate letter.

A very sad news for our ministry, but very happy one for Dantus family. Finally he got a fulltime job as a lawyer in the military. It is a big step for his family and his career, but due to harsh laws no longer allowed to represent other organizations. We will miss him. Brethren, please pray to find a new man for Focsani prison!

Have a blessed Easter!
With love in Christ,

Kövendi
