

December 2018

"You crown the year with Your goodness, and Your paths drip with abundance." Ps.65,11 We wish you a blessed and happy new year! Thank you for your constant support for the Romanian volunteer team. We all pray for our successful future in the Romanian Prison System. There is a new tendency to no longer allow us to work with short-term activities. The responses to our requests invoked the full coverage of this need by system employees. We only have the opportunity to

work with accredited long-term programs. So we need more good accredited programs. We have great hope that the new program "Freedom in Truth" written by Costin Dumitru will be accessible to all of us. Please pray for this New Year, may God opens doors and to give goodwill to those men who have the power to decide on our behalf.

Viorel wrote regarding Codlea Prison: Since November a former volunteer Micah has begun to the meetings, he helps me with songs, preaching and testimony. They started to help some inmates, with the institution recommendation. They send greetings to all of you!

Brother Baboi has already distributed 100 Christmas parcels among young people in the Tichilesti Prison. Here's the picture of some of the meetings there. We try to never miss a chance to challenge others to come in the mission with us. Brother Baboi had several conversations with different people, he represented our ministry at an official meeting. Here is a picture from Tulcea, in Avramide House. He discovered a brother from the Republic of Moldova, who already leads a prison ministry with a good reputation in the country. Seeing the

Berean website, he asked to help him providing Bibles. He actually works with the Kay Arthur Bible study method (see Precept Ministries International).

Christmas parcels sponsors on the picture. In the middle is my co-fathers-in-law and his pastor.

Oradea volunteer group finished the year with very good impressions, despite the difficulties in the beginning. We are hoping that the institution will appreciate the work done by these zealous volunteers. Moreover, Toth Zoltan wants to work with the weekly frequency. It is good news. We will try to take the necessary steps for this purpose.

I had discussions with the new volunteer

from Craiova Prison. Brother Spatarelu finished the cycle with good results. He wants to continue in January. May God bless him! He is a valuable person.

Andras Attila sent a picture from an outstanding event with inmates from TgMures.

In Mioveni we have good results with the group. We also are in the first cycle, and we started to get to know the unit's employees. We pray that the Lord bless us. Likewise in MCIuc I had a particularly good group, attentive people with a respectful attitude.

With love in Christ,

*Kövendi*
