

October 2020

Dear brothers, the seven months in which the doors of the prisons were closed in front of us have passed. It was hard. Thank you very much for supporting us so that we do not lose faith. The Lord has been good to us. We know that everything that happens around us is allowed by God, no matter how hard, "but God is faithful, who will not suffer you to be tempted above that ye are able" 1Cor 10,13 We have often heard His comfort "Do not be afraid!", "for He commandeth even the winds and water, and they obey him" Luke 8:25

### Online Prison Ministry

Starting in October we can preach again the Gospel in prisons. Thank you for your constant prayers. So do we pray for you especially in these troubled times. May the Lord protect you and give you heavenly joy in everything. He is omnipotent "and all these blessings shall come upon thee" Deut 28,1-13

We started so far the online work in several prisons: **Galati, MCIuc, Tichilesti, Tg-Mures, Gaesti**. The study groups are smaller as usual. We are beginning to get used to these new conditions. There are still many prisons from where we only received written and spoken promises because they failed to install the necessary equipment as far.

We usually are waiting for an invitation to arrive by email so that we can enter the penitentiary network. When we make the connection, we present our ID cards through the webcam. The inmates' group comes from a single room community. We see them coming, greet each other, they can ask us questions, we can answer them. Then we start the Bible study. Andras Attila gave us a big help, he has already sung online in several units. It is an advantage that we can use his musical talent better. Then comes the next group after half an hour break of disinfection. We usually meet with a group twice a week apart. After the two meetings, they write a test that we receive as scanned documents by email. We correct them and send them back by email and by mail.

Please pray that our work will be blessed by the Lord.

With love in Christ,
